MEMORANDUM FOR: Mr. Winner  
Mr. Amory

Mr. Lloyd Wright, Chairman of the Commission on Government Security, and an eminent lawyer and former President of the American Bar Association, wishes me to brief his commission of 12 members with regard to matters of interest to them which would include generally Soviet methods of clandestine organization, penetration, building of fronts, training of personnel for subversive and espionage activities, et cetera, et cetera.

I think that probably Jim Angleton and some of his people, and probably [redacted] staff could pull something together for me on this.
